To The PIONEER

"Pioneer": In my estimation, no more fitting name could have been chosen for your school paper.

In the early history of our country, the sturdy pioneers blazed the trails, hewed the forests and laid the foundations of our present educational privileges. As the first elementary school paper published in Summit County, yours will be the privilege and duty, to prepare the way and make the path straight, for bigger and better things, educationally, in the future.

no knows, but through the preparation and influence of your paper, a future great poet, author or journalist, may be discovered and helped on the road to great achievement.

In the name of the Pioneer Sunday School class we hereby welcome you to our family in name and may God grant you unswerving success in your endeavor.

Ms. Frank Snyder
Class Teacher

JOES

Robert: "Say, Coach, I want bigger shoes."
Mr. McGeehan: "Why those fit you. Why bigger ones?"
Robert: "So I can cover more space in less time."

Mrs. Yates: "That's the matter, don't you know the question?"
Frazier: "I know the question, but I don't know the answer."

Miss Mitchell: "What is the difference between a barber and a sculptor?"
Walter: "A barber curls up end dyes while a sculptor makes faces end busts."

Answers To "Who Said The Following:

1. Patrick Henry
2. General Prescott
3. Andrew Jackson
4. John Brown
5. Sam. Jerry
6. Jackson
7. Marshall
8. J. W. Chester
9. R. W. Emerson
10. John Allen

A scientist says that present day boys are two inches taller than their fathers were at the same age. Everything is higher now it so was.

In the collecting of musical instruments for the orchestra, David Fluck said that he could not bring their old Scotch drums for it had gotten so tight that it had busted.

HARVON OF TEACHERS AND P.T.A.

You rarely find a group of people in any community who work in greater harmony than our parent teacher association. We are very proud to have a small part in making the "Pioneer" a success.

Since affiliating recently with the National Parent Teacher organization we feel that we can serve our community interests to a greater measure.

With the cooperation of our new president, Mrs. Crawford, who is very capable of carrying on this work and our principle, Mr. McGeehan, who besides school duties is taking an active interest in our community and is a great inspiration in his progress and with our most efficient staff of teachers we are creating an unusual amount of enthusiasm among the pupils.

One of our chief accomplishments has been the maintenance of a school library. Since the beginning of the library the collection has been increased by gift and purchase to a total of more than eight hundred volumes.

We feel fortunate in having with us Mrs. Anderson who very graciously offered her services as librarian for the year. Mrs. Anderson comes to us highly recommended having had much experience in teaching and library work.

Another of our large and most productive enterprises we have undertaken is the cafeteria. We have secured the services of two ladies of the organization to take complete charge of the cafeteria and to serve lunches under menus prepared by the teachers. Thus both teachers and pupils are able to have a warm and nourishing lunch.

All chairman of the various committees report their assistants chosen and working. The outlook seems extremely bright for further progress through our various extension work plans. We have the assurance of a very interesting and profitable year.

LOUISIANA, PRIME MINISTER MACDONALD'S HOME TOWN.

James Ramsey MacDonald, England's Prime Minister, who has been visiting President Hoover in the White House, is a native of Louisiana, a village on the coast of Scotland.

The test of his skill as a labor leader has been traced back to the time when as a boy his gang fought another gang. At the Drains School no new boy was accepted by his fellows until he had swung through the nineteen tree tops, surrounding the school, like a squirrel, never touching the ground.

ATTENDANCE CONTEST.

A contest between Grades 4 and 5 to encourage good attendance is being with a great deal of interest in each room.

The total scores for three weeks are as follows:
Grade 4 - 68 half days absence.
Grade 5 - 71 half days absence.
We write the fifth grade is in the lead.

FOURTH GRADE.

The dollar prize for having the most mothers present at the October P.T.A. meeting went to the fourth grade.

The Halloween party given in the fourth grade room was much enjoyed by all the pupils. Brooks Latham has the highest score in the speed test problems, with a total score of 24 points.

Thirty-four pupils were perfect in attendance the first month of school and twenty-nine the second. Mildred Hedge was the first person in the room to get twenty-five one hundreds in Spelling.

WHERE WE ARE LOCATED.

Stop and think for one moment where we are located. Most people in life are always looking for some better place, or more interesting place than that in which they live. But not so in this case, for we are going to try to convince you that we are located in one of the most interesting, as well as one of the most important spots in this Great country of ours.

First we have on the northwest of us the Akron Municipal Airport, which has the largest Zeppelin hangar in the world. Just beyond the airport is the city of Akron, which is known for its great rubber factories. Among them are Goodyear, Goodrich, Firestone, Monark, India, Miller and General. We are proud of Akron because it is the greatest rubber manufacturing city in the world.

In the city of Akron we also find the world's largest concrete bridge. The city has some of the largest department stores, such as the M.O. Bell Company, one of the largest in the state.

On the northeast of us is Spring-Field Lake and Springfield Lake Park. The lake is one of the largest in Summit County. The park has many very good amusements and is considered one of the best in the county. This park is situated on the Canton-Akron Highway, and is in touch with the best of bus service. The local service from the city of Akron is every twenty minutes. This puts you in touch with some of the best bus lines, railroads, and electric car lines in our Great nation. It also has twenty minute electric car service. Three other great bus lines pass by the Park entrance.

On the southeast of us we have the Sanitorium, located on the highest point in Summit County. This is a very good local hospital for our people, in case of accident or sudden illness. Therefore we think we are quite well situated and are very proud to be going to have another paper boost our village and school.

Jack Taylor & Adelbert Hunt. (c)

MORE MUSIC FOR GRADE FURBLS.

Since we have no high school in Lakemore to provide many things for us, we are going to develop some of these in our grades.

We are working on plans at this time for a school orchestra and are asking the cooperation of both parents and friends to help boost it. We are willing to put forth any effort here at school to make the project a success, if it is the desire of the parents.

So we sincerely hope we may hear from many parents expressing their ideas along this line.

We must all remember, the life of this orchestra depends to a great extent upon the whole hearted support we get from the parents and friends in Lakemore.

An Asst. Editor.

WHO ELI'T THE FOLLOWING?

1. "Give me liberty or give me Death."
2. "Don't fire till you see the whites of their eyes!"
3. "Our federal union, it must be preserved."
4. "Make a vow to kill all American slavery."
5. "Don't give up the ship."
6. "We will give them the bayonet."
7. "Millions for defense but not one cent for tribute."
8. "Liberty and Union, now and forever, one and inseparable."
9. "America is another word for Opportunity."
10. "In the name of the Great Jehovah and the Continental Congress."

The answers to the above questions will be found in this issue.

By Kirk Cupp. (8).

The paper which you are now reading was made by our new Letter-press machine, purchased from the sale of old papers and magazines. So do not burn your old papers, we are going to have another paper sale before long.

The Editor.

THIRD GRADE NEWS

Fourteen girls and six boys two months.

Reading lesson and Jimmie Green had an average of "A" in all studies the first term.

Ten boys and girls are drinking mid-morning milk at the mid-morning lunch. We hope that several more will be able to join the "Drink Milk for Health Club" soon.

SECOND GRADE NEWS

With every "A" meeting we find new names on our chart. We now have twenty-one stars. We hope to have every copy spot on the chart filled with a gold star before the year is over.

It seems that everyone is trying to make us happy. Mrs. Williamson has loaned her vic-trola to us for the whole year. The boys and girls bring us their favorite records and we choose the ones we like best.

SIXTH GRADE NEWS

Lucy Mae Carey is in St. Thomas Hospital, where she is to undergo an operation on her hip. She will probably be in the hospital for a year. In remembrance of her birthday the sixth grade sent flowers and greetings.

Jack Elliott has been chosen president of the sixth grade Health Club. One assistant from each row serves as an inspector for two weeks.

WHAT WOULD HAPPEN IF:

Edwin Cochran did not smile at Bodelme? Mrs. Armstrong did not eat potato chips? Rex Fegs really hurried? Don Anderson was present every day?

Jimmie James failed to recite in history class? Dana Bond should sing in music? Mrs. Yates told her age? Mr. McGarran should lose his permanent wave? Jack Taylor forgot to get his milk?

Kirk Cupp forgot to deliver his message? Earl Mullinger would skip school and could not get an excuse from his sister? Bob Burley, asking for some cleaning cloths to be used in work at printing said, "Will everyone who has any old rags or underwear please bring it to me?"

The teachers of Lakemore school want to take this opportunity to thank the parents and friends for their wonderful cooperation in the preparation and serving of the Thanksgiving dinner.

Mr. McGarran, "Glenn, what is another remedy to stop floods?" Glenn: Dump sponges in the river!

A fire broke out in the Deaf and Dumb asylum. One of the inmates broke his thumb and two fingers yelling, "Fire!"

STUDENT COUNCIL OF LAKEMORE

If the King and Queen of England should visit our school for the purpose of choosing a model American school, would they like our behaviour? Surely! Why? Because of our Student Council. This is the first time that Lakemore school has ever let the children in it help to govern themselves. The Student Council is a group of boys and girls which was chosen by the school to appoint a group of police to control the different places around the school. The playground, the sidewalk, the drinking fountains are all supervised and kept quiet during the recesses and noons.

Since the Student Council has come into action the teacher's part is much easier. The student council has taken their part very well. I am so proud that Lakemore school is perfect for there is plenty of room for further improvement, but I do think that Lakemore school is better than the average school.

BY Adelbert Hunt

After Mrs. Yates had fully explained an arithmetic problem on the blackboard she turned her attention again to the class to see if there were any questions. Rex Legg, who had been giving his usual good attention did not understand. "All," says she, "watch the board again and I'll go through it again."

STUDENT POLICE AND POSITIONS

Sergeant: Brooks Monroe, in charge of complete force.
 Corporal: Harold Hunston, in charge of the boys
 Corporal: Ruth Monroe, in charge of the girls
 Patrol: In charge of the girls playground: Ruth Monroe, Ruth Myers, Stella Grimley

 Other Positions: Basement fountain
 Blanch Musselwhite; Main entrance
 Jewell Switzer; First floor
 Teresa Bryant; Second floor
 Guard lantern: Front walks
 Lucille Brown; Lunch room
 Edward Ezel; Sanitation food
 Reserves:
 Glen Switzer
 Edwin Goodman
 Margaret Johnson
 David Luck
 Council is as follows:
 Grade 1- Robert Burley
 Grade 2- Glen Switzer
 Grade 3- Elizabeth
 Mary Northway
 Dolores Brandt
 Grade 4- Edwin Goodman
 Harold Hunston
 Marion Almond
 Grade 5- Frances Konecky
 Jack Beck
 Jack Elliott
 Helen Goodman
 Helen Grimley
 Grade 6- Ruth Monroe
 Ruth Myers
 Stella
 William Johnson
 Jack Legg
 Jack Legg

POETRY PAGE

Be A Boaster

If you think your school is best
 Tell 'em so
 If you'd have it lead the rest,
 Help it grow.
 When there's any thing to do,
 Let the others count on you;
 You'll feel good when it's thru-
 Don't you know.

If you're used to giving knocks
 Change your style.
 Throw bouquets instead of rocks
 For a while
 Let the other fellow roost
 Shun him as you would a ghost;
 Meet his barter with a boast
 And a smile.

When a student from afar comes along,
 Tell him who and what you are
 Make it strong.
 Never flatter never bluff,
 Tell the truth and that's enough
 Be a booster that's the stuff
 Don't just belong.

H O M E S

A house is built of bricks and stone
 Of wood and beams and pliers,
 A home is built of loving deeds
 Which stand a thousand years.
 The men of earth build houses
 With pillars, walls and domes
 But the women of the earth, God knows
 The women build the homes.

GET ACQUAINTED

The fellow you hate away down in
 your heart,
 The chap you think you despise,
 Might prove in the end the best
 kind of a friend,
 If you'd just open up your two eyes;
 You see but his shell, his heart you
 seldom must find,
 And be introduced to his soul,
 Get acquainted, old chap, you may
 learn by mayhap,
 That he's honest and earnest and
 whole.

L I F E

Life isn't a patch of gladness
 as we think it in our youth,
 It's filled with tears of
 sadness
 For few respect the truth.

Life is what we make it,
 For ourselves and others,
 And many a time we're not
 fit called sisters and
 brothers,
 To be called sisters and
 brothers,
 Many a nut we hit in the
 strife
 and there is always another
 ahead,
 So don't give up in the game
 of life,
 Keep going, until you are dead.

No matter how great the
 sadness,
 That meets you in the fight,
 Always, you may find a beam
 of gladness
 Waiting to seek the light.

Frances Konecky, 7.

The fellow you hate for no
 reason on earth,
 May be a lot finer than you,
 Go out of your way and some
 pleasant word say,
 And you'll see the real man
 shining thru;
 Tho' something about him
 rubs you on the raw,
 It will pass when you take
 his right hand,
 If you'll try to be kind,
 I'll bet you will find
 After all he's a regular man.

STUDENT ON ROAD TO RECOVERY.

Lindsay Hale of Lakemore, a member of the sixth grade class, is reported to be quite ill with a very severe case of Pneumonia. We sincerely hope Lindsay will make a rapid recovery, that we may have his happy smile again in our class room.

FIRE! FIRE!

Was the cry heard in Lakemore a few days ago. About the time most people were enjoying a pleasant lunch hour. Then behold the fire trucks from both Springfield Center and Akron were fighting the tongues of flame that were attempting to take the loved ones home. While the "Fire Boys" of Lakemore were laboring to start our truck, which contained no gasoline and was blessed with a flat tire.

What do you think? ? ? ?

RECORD MEETING OF THE P. T. A.

On Friday night November the fifteenth the Lakemore Parent Teachers Association, held their record meeting. Over one hundred fifty people attending.

The regular business meeting was followed by a short program, climaxed with a very interesting, as well as educational talk by Dr. Hayes, Psychologist of the University of Akron.

Dr. Hayes discussed the Basis of Fear and stressed the point that it was essential for each and every parent to use the utmost care in the training of their children, lest they display some petty personal fear before the child, that may influence the child's whole life. Children are not naturally afraid of such things as insects, mice, worms, darkness, and lightning, but they develop this fear by association with someone that is afraid of these things. It is very dangerous to create fear in the minds of little children. For this fear may sometime be the undoing of a very successful life.

NEXT MEETING OF THE P. T. A.

The next meeting of the Parent Teachers Association, will be held Friday Afternoon, December 20th. The fourth and fifth grades will have charge of the program. We urge that not only the parents attend these meetings but every one that is interested in the welfare of our young people.

"THE HOODOOED COON"

You'll Laugh! YOU'LL SCREAM!

You'll Howl!

A three act comedy drama to be presented by the pupils of the Eighth Grade of Lakemore School. Watch for posters of the place and date. Don't miss it!

MUSIC.

Lakemore boys and girls are taking unusual interest in music this year, due to the fact that they have district supervision in addition to their usual work in music. Miss Mitchell teaches the music classes in 6th, 7th, and 8th grades. All grades of music are supervised by Miss Louise Lorenz.

Another particularly helpful addition has been the piano, which makes music classes easier, as well as more interesting. We are quite fortunate in finding pianists for various classes. Patricia Stinnett for the sixth grade music classes. The seventh grade is assisted by Harry James. Frazer Redinger plays for the boys' choruses and assists Dolores Brancher in playing for the eighth grade classes. The fifth grade also has an able pianist—Vera Grace Snyder.

With each new day comes the discovery of some unknown talent, that before long we expect to have a lively club of boys and another of girls.

Before the year is over we hope to have a good sized orchestra to assist in school entertainments and other occasions. The first grade has already developed some talent, using only a homely clothespin and oatmeal box.

-----Dolores Brancher.

SECOND GRADE NEWS.

Much enthusiasm has been aroused in the second grade over their "Good Helper Chart". Everyone is trying to be the best helper. The people who visit us always wonder what it is all about and of course we are proud to tell them. Who wouldn't be? The Good Helper Chart means just what it's name says. There are fifteen boys and girls who are very happy this month for they have the most stars on the chart.

JOKE.

Mrs. Yates—"A fool can ask more questions than a wise man can answer."

Robert B.—"Oh, no wonder I flunked last year."

Miss Dunn—"Miss Dunn, are you old enough to get married?"

Miss Dunn—"Yes, but not silly enough."
